

**27<sup>th</sup> February 2018**

Wheelsure Holdings Plc

("Wheelsure Holdings " or the "Company") Ref. Haydale Graphene Industries plc (AIM:Haydale)

**Business Update**

Wheelsure Holdings Plc (NEX:WHLP), the NEX quoted industrial engineering company today announces that the company is collaborating with Haydale Graphene Industries plc (AIM:Haydale) in conjunction with the University of Swansea, to develop intelligent systems for transport and industrial applications using Haydale's graphene ink sensor technology, with the view to extending its existing product range.

Haydale holds close partnerships with academic organisations to fully understand the nanochemistry of graphene, silicon carbide and other nanomaterials. They have the engineering and design application expertise to deliver the improvements companies require.

In view of current patent applications being in the process of filing, it would be inappropriate to make further details public at this stage. However, promising progress is being made and the two companies will provide more information in the coming months.

The directors of the Company are responsible for the contents of this announcement.
